POLICIES AND RESOURCES

At River Parishes Community College, we are committed to providing students with clear, accessible information to support their academic journey and overall college experience. This section of our catalog serves as a comprehensive resource hub, offering direct access to essential policies, procedures, and support services across key areas of the college. Here, you will find important information related to academic standards, admissions requirements, financial aid and tuition, student conduct, and support services. These resources are designed to help students, faculty, and staff understand their rights, responsibilities, and the wide range of services available to promote success at RPCC. Whether you're just starting your college journey or continuing your studies, this page is your guide to the tools and information that support your success.

In addition to the information provided in this catalog, students are encouraged to review the most current academic policies published on the college website (https://www.rpcc.edu/about-us/policies-procedures/index/) and in the Student Handbook. Staying informed about academic expectations and responsibilities helps students make well-informed decisions and stay on track to achieve their educational goals at RPCC.
